

**BUILT
FOR
THIS.**

YOU AND EXMARK MOWERS

Like you, we're up before the sun, regardless of the conditions. Hot, humid, nasty...
Most people couldn't finish this day. Many wouldn't even start.

But none of that matters to you. There's work to do.

Like you, your Exmark is built to not just perform, but thrive when others
are throwing in the towel. Your signature is the professional finish your Exmark
leaves on the lawns you maintain. You're a team on a mission to deliver what
your customers want... what they expect.

So, bring on those summer showers and humidity that hangs like a blanket. Push through
the choking dust and swarms of mosquitoes. Dominate the acres of turf in front of you.
Bermuda, bluegrass, centipede, fescue or zoysia... it doesn't matter.

There's no stopping you... or your Exmark mower.

Let's finish the job, close the deal, and beat
the sunset like we always do. Because
you're cut from the same metal as that red
mower in your rear-view mirror, you aren't
just good at this.

Like Exmark mowers...
you were built for this.

exmark.com/built-for-this

BUILT FOR THIS.

BUILT FOR...

Solutions

Reduce labor needs with larger, more productive mowers

Performance

The power and speed pros need to finish jobs fast

Durability

Ready to run hard all day, every day

Commitment

Exhaustively tested both in the lab and in the field

Profitability

Engineered to deliver the lowest overall cost of ownership

Long Days

Enhanced comfort features keep operators up and running

Clean Cuts

Everyone wants the Exmark signature quality of cut

Backyard

Finish work faster and get back to doing what you love

Future

Committed to innovations today, tomorrow and into the future

...Everyone

BUILT FOR 2022

Capable of mowing up to 11.5 acres per hour, the new **144-inch Lazer Z Diesel** zero-turn rider is Exmark's most powerful, productive mower ever.

**PRODUCTIVITY.
COMMERCIAL DURABILITY.
EASE OF USE.**

FEATURES

5-inch Deep Cast Aluminum Cutting Deck
2-in-1: Bag and Mulch

Commercial-Grade Engines
Honda® or Kawasaki®

Patented Front Height Adjustment System
Eliminates need for pivot-style adjusters

Infinite Speed Control
Multi-zone transmission provides infinite speed control from zero to 4.2 mph

Multiple Blade Options
The option of five blade choices gives you the flexibility to customize for your unique cutting conditions.

COMMERCIAL 21

Known for getting the job done faster, and better, Exmark's commercial-grade 21-inch walk-behind mowers deliver an unmatched quality of cut—and years of worry-free service—that have become the industry benchmarks. Recent design features like the patented front height adjustment system and single-point rear height adjust provide even more versatility when mowing.

EASE OF USE

The Commercial 21 has simple, straightforward controls and a lightweight, durable cast aluminum cutting deck, which reduces weight and eases maneuverability.

THE EXMARK® SIGNATURE CUT

The true test of a mower is the cut quality it delivers. The Commercial 21 is engineered to consistently deliver an unmatched quality of cut, whether mulching or bagging. A variety of optional blades let you further optimize performance for your specific cutting conditions.

**UNMATCHED PERFORMANCE.
MANEUVERABILITY.
COMMERCIAL DURABILITY.**

FEATURES

4.6-inch Deep Cutting Deck

3-in-1: Bag, Mulch or Side-Discharge

Commercial-Grade Engines

Kawasaki or Kohler®

Blade Brake Clutch (BBC)

Allows the blade to be engaged and disengaged without stopping the engine

Patented Front Height Adjustment System

Eliminates the need for pivot-style adjusters

COMMERCIAL 30

If you're looking for even more productivity, but still require the maneuverability and cost effectiveness of a smaller walk-behind, step up to Exmark's Commercial 30. As the lightest weight machine in it's class this machine is agile enough to tackle any property. These Commercial 30 mowers deliver up to a 40% increase in cutting efficiency compared to a standard 21-inch mower—so you can cut more grass in less time.

PRODUCTIVITY

Commercial 30 delivers the productivity of a larger walk-behind mower, with the versatility and maneuverability of a smaller machine. The 30-inch width of cut allows operators to cut 40 percent more with each pass than a 21-inch walk-behind mower.

COMMERCIAL DURABILITY

For increased durability in commercial use, the Commercial 30 comes standard with heavy-duty side braces, an engine guard, a metal side-discharge cover and a 1-inch diameter front bumper.

TOP ACCESSORIES

Micro-Mulch System

Accessories may not fit each mower model. Please visit exmark.com or check with your dealer on accessory fit-up for each model.

QUALITY OF CUT. LONG-LASTING PERFORMANCE. ENHANCED CONTROL SYSTEM.

FEATURES

UltraCut™ Series 3 Deck
Side Discharge: 36 | 48

Commercial-Grade Engine
Kawasaki

Patented Enhanced Control System
Natural, ergonomic hand position helps reduce operator fatigue

Patented Belt Covers
Can be removed without tools for easy debris removal and quick belt access

TURF TRACER®

The Turf Tracer is Exmark's premium wide-area, walk-behind mower, combining the productivity of larger cutting decks and hydro-drive components with the unmatched quality of a full-floating deck. They are engineered for speed, efficiency and durability, and always deliver a quality of cut that is second to none.

LONG-LASTING PERFORMANCE
These hydro-drive models provide more control, instant response, and precise speed regulation with full-reverse and zero-turn maneuverability for unmatched productivity and durability.

CONVENIENT DECK LATCH
Changing the height of cut has been made easy with the added deck latch. Rather than holding the deck while changing the height of cut, the deck will now lock into place making it easier on operators. (Not available on 36-inch decks.)

TOP ACCESSORIES

STARIS® E-SERIES

The compact Exmark Staris stand-on zero-turn mower is an extraordinary blend of productivity and value. The stable, low-profile design and intuitive controls make Staris easy to operate, while the heavy-duty tubular steel frame and formed, welded UltraCut Series 3 cutting decks ensure maximum long-term durability.

SINGLE-POINT HEIGHT-OF-CUT
Operators can quickly and accurately change the cut height by simply adjusting the pin and raising or lowering the deck.

COMPACT DESIGN
The compact size of Staris reduces trailer and storage space; and gives you the ability to access more yards, more quickly, while providing exceptional maneuverability on tough terrain.

TOP ACCESSORIES

- 3-Bushel Bagger
- 12-Volt Power Port
- Equipment Cover
- LED Light Kit
- Micro-Mulch System
- Operator Control Discharge (Hand)
- Strobe Light Kit
- Trash Container

Accessories may not fit each mower model. Please visit exmark.com or check with your dealer on accessory fit-up for each model.

**LOW MAINTENANCE.
COMMERCIAL DURABILITY.
SIMPLE OPERATION.**

FEATURES

UltraCut Deck

Side Discharge: 48 | 60

Commercial-Grade Engines

Kohler

Easy to Service

Toolless removable floor pan and belt shields

Standard Integrated Tow Hitch

Allows for quick attachment of light implements and carts with an 80-pound capacity

RADIUS

The Radius delivers the commercial durability, reliability and operator comfort our customers expect from an Exmark zero-turn rider. These mowers provide landscape professionals with Exmark's signature cut quality, reduced-maintenance and increased productivity. In a stylish, value-oriented package, the Radius achieves a lower total cost of ownership than other machines.

EASY TO SERVICE WITH

Operators can easily access the top side of the cutting deck, belts and spindles with the toolless, removable floor pan and belt shields. The welded jack receiver also allows quick access to the underside of the deck when combined with the optional jack.

COMMERCIAL-GRADE ENGINES

All Radius models come equipped with Kohler commercial-grade engines.

TOP ACCESSORIES

- Engine Maintenance Kit
- LED Light Kit
- Micro-Mulch System
- Operator Controlled Discharge
- Sun Shade
- Trash Container
- Turf Striping Kit
- UltraVac Collection Systems

Accessories may not fit each mower model. Please visit exmark.com or check with your dealer on accessory fit-up for each model.

**UNMATCHED PERFORMANCE.
LEGENDARY DURABILITY.
MAXIMUM COMFORT & PRODUCTIVITY.**

FEATURES

UltraCut Deck Technology

Side Discharge: 48 | 52 | 60 | 72

Rear Discharge: 60 | 72

Commercial-Grade Engines

Kohler, or Kawasaki

Unibody Frame

Fully welded tubular frame design places major components like the engine, hydro-drive and fuel tank lower for better mass centralization

Hydro-Drive System

Eliminated hoses and added tougher bearings, an improved cooling system and increased oil capacity.

LAZER Z

For over 25 years, Exmark's Lazer Z has been considered the gold standard in commercial-grade, zero-turn excellence. Pro cutters and homeowners have aspired to experience their superior cut quality, productivity, durability and performance. Built for easier maintenance and longer life, our Lazer Z mowers are simpler, tougher and easier to operate.

THE SIGNATURE CUT

We've optimized the blade-tip speed of the UltraCut decks to perfect the distance and uniformity of clipping discharge. All the components in our deck work together to deliver the signature Exmark look, cut after cut. Job after job.

ENHANCED TRACTION AND HANDING

Our Lazer Z mowers are more responsive and easier to operate, ultimately increasing productivity. The mower's low center of gravity combined with relocated components and seat position improves traction. The result is a well-balanced machine.

TOP ACCESSORIES

- Air Ride Suspension Kit
- LED Light Kit
- Micro-Mulch System
- Operator Controlled Discharge
- Sun Shade
- Tractus Tire
- Trash Container
- Turf Striping Kit
- UltraVac Collection Systems

Accessories may not fit each mower model. Please visit exmark.com or check with your dealer on accessory fit-up for each model.

BUILT FOR THE LAZER Z

COST OF OWNERSHIP

Since initial cost is just a fraction of a mower's total cost over its lifetime, each Lazer Z model is engineered to minimize service and maintenance costs over time. From the fuel savings of the available EFI-equipped engines to the sealed, no-grease caster bearings and unitized hydro pump and wheel motors, each Lazer Z is designed to maximize uptime and reduce total cost of ownership.

TRACTUS™ AIRLESS DRIVETIRE

Available for select Lazer Z models, Exmark exclusive Tractus airless drive tires eliminate flat tires and related downtime. With a similar ride quality to pneumatic tires, Tractus increases operator comfort, while the proven tread design offers superior traction and reduced marking on concrete.

LAZER Z SUSPENSION PLATFORM

At Exmark, we're using our expert knowledge in operator comfort and ergonomics to make Lazer Z mowers more comfortable to use. The suspended operator platform maximizes productivity through increased operator comfort. Adjustable coil-over hydraulic dampers significantly reduce the impact of bumps and vibration, and the system is easy to adjust for operator size and weight.

NEXT-GENERATION RED TECHNOLOGY

Next-generation RED Technology delivers increased machine efficiency, ease of use and long-term durability. This patented technology offers the ability to control mower power and efficiency with defined performance modes. Updated with a sealed key switch and PTO connections as well as a new, console-mounted LCD display screen, the screen provides an easy-to-use interface for enhanced monitoring of vital mower functions, machine health monitoring, and operating and property statistics reporting.

Cost of Ownership

Suspension Platform

Tractus

RED

LAZER Z SEATING SYSTEM

At Exmark, we've taken comfort to a whole new level, becoming experts in the game-changing science of ergonomics. Our scientific methodology utilizes pressure mapping to analyze the fatigue factors of vertical and lateral motion, driving the development of mower comfort. We know that if operators are more comfortable, their businesses will be more profitable.

**PREMIUM DIESEL PERFORMANCE.
LEGENDARY DURABILITY.
MAXIMUM COMFORT & PRODUCTIVITY.**

FEATURES

UltraCut Deck Technology

Side Discharge: 60 | 72

Rear Discharge: 72 | 96 | 144

Commercial-Grade Engines

Yanmar®

Hydraulic Deck Lift

Provides for easy cutting height adjustment and quick transport

Reduced Maintenance

With an efficient and robust powertrain system, these machines have less maintenance and longer service intervals. The tool-less belt access and removable floor pan makes servicing easy

LAZER Z DIESEL

For a variety of reasons, the diesel-powered Lazer Z mowers may be the right choice for your cutting needs. They make quick work of the largest, toughest jobs and raise the bar for cut quality, operator comfort, fuel efficiency and ease of handling. Our large 144-inch flex wing deck is capable of mowing more than 11.5-acres per hour,¹ making it the most productive mower Exmark has ever built.

BUILT FOR LARGE PROPERTIES

The robust engine power and large deck sizes make these mowers Exmark's most productive diesel machines ever. They are a great solution for universities, municipalities, and other sizeable properties yet nimble enough to maneuver smaller landscapes.

ENHANCED OPERATOR COMFORT

Operator comfort is critical to productivity. That's why we've worked so hard to reduce noise and vibration, and placed the operator seat in full suspension on ISO mounts—so you can go for hours.

TOP ACCESSORIES

- LED Light Kit
- Micro-Mulch System
- Operator Controlled Discharge
- Sun Shade
- Trash Container
- Turf Striping Kit
- UltraVac Collection Systems

Accessories may not fit each mower model. Please visit exmark.com or check with your dealer on accessory fit-up for each model.

SIGNATURE CUT QUALITY. VACUUMING PERFECTION. RESPONSIVENESS AND CONTROL.

FEATURES

Full-Floating Fabricated Deck

Rear Discharge: 42 | 48

Commercial-Grade Engines

Kohler

Easy to Service

Gas tank swings open for engine accessibility while drive belts are easily removed and installed without tools

Airflow flexibility

The deck collection chute is a full six inches in diameter that combined with a large diameter blower, generates more airflow for better vacuuming and debris collection

NAVIGATOR

The Navigator, Exmark's signature fine-cut machine, has a patented fill reduction and large diameter blower allowing the operator to vacuum a perfectly mowed lawn in record time. The fill reduction system allows operators to quickly switch from dedicated bagging mode where they are collecting 100 percent of the clippings, to a fill-reduction mode where they are collecting half of the clippings while mulching the other half of the clippings. The center discharge deck is designed for two-sided trimming to more accurately control discharge, keeping flowerbeds and walkways free of clippings.

OPERATOR COMFORT

The effortless "Feather Touch" steering controls, combined with a bolstered high-back seat, foam padded cushion and rubber seat isolators, add up to a comfortable ride that reduces operator fatigue—for all-day operation.

DECK LATCH

Changing the height of cut has been made easy with the added deck latch. Rather than holding the deck while changing the height of cut, the deck will now lock into place making it easier on operators.

TOP ACCESSORIES

- Automatic Door Opener Kit
- Dump Tubs
- LED Light Kit
- Micro-Mulch System
- Narrow Drive Tire Kit
- Powered Dump

Accessories may not fit each mower model. Please visit exmark.com or check with your dealer on accessory fit-up for each model.

BUILT FOR A SIGNATURE CUT

When it comes to durability, Exmark's UltraCut decks are among the strongest in the industry and set the standard for productivity and quality of cut. These UltraCut mowing systems are the ultimate in a floating deck for efficiency, quality of cut and rugged durability. Regardless of which one you choose, your mower will deliver the cut quality, durability and longevity you expect from Exmark.

ULTRACUT™ SERIES 3

These full-floating decks precisely follow ground contours to deliver a more consistent height of cut and reduced scalping. They feature robust, yet flexible, discharge chutes, designed to reduce the possibility of impact damage from trees, rocks and other obstacles.

ULTRACUT™ SERIES 4

With a deeper design, these decks are formed and welded to provide superior strength and durability. These decks feature sealed, maintenance-free spindle assemblies and patented spherical bearing design on the idler arm pivots to eliminate maintenance and reduce downtime.

ULTRACUT™ SERIES 6

All the features from the Series 4 deck are standard plus an enhanced cutter housing. The Series 6 deck cutter housing features a more robust spindle and bearings. All components in these decks work together to deliver the quality of cut you expect from an Exmark mower.

ULTRACUT™ REAR DISCHARGE

The Rear Discharge deck has counter-rotating blades for enhanced clipping dispersion with the ability to trim on both sides of the deck. Deck comes standard with black side bumpers. Optional white bumpers available which are perfect for not leaving marks.

ULTRACUT REAR DISCHARGE WITH FLEX WINGS

Our flex wing decks are the ultimate mowing systems for productivity with 96- or 144-inch widths available. Capable of articulating up to 20-degrees up and 15-degrees down to precisely follow ground contour, the wing decks fold hydraulically to minimize trailering space. All UltraCut Flex Wing cutting decks are engineered to not just be more productive, but also deliver the durability and signature cut quality Exmark owners expect.

EXMARK MFG. CO., INC.

415 Industrial Row | Beatrice, NE 68310 | 402.223.6300 | www.exmark.com

¹ Many manufacturers use 100% efficiency ratings for sale purposes. Exmark believes an 80% efficiency rating is more representative of actual mowing conditions, as it allows for turns and overlapping. Formulas for calculating acres per hour: **100% efficiency:** MPH x width of cut ÷ 99 = acres per hour | **80% efficiency:** MPH x width of cut ÷ 124 = acres per hour

² For complete details, visit exmark.com or your local dealer.

³The gross horsepower of these gasoline engines was laboratory rated at 3600 rpm by the engine manufacturer in accordance with SAE J1940 or SAE J2723. As configured to meet safety, emission and operating requirements, the actual engine horsepower on these mowers may be significantly lower.

⁴The gross horsepower of the 3TNV80FT was laboratory rated at 2600 rpm; the 3TNV88C was laboratory rated at 3000 rpm by the engine manufacturer in accordance with SAE J1995. As configured to meet safety, emission and operating requirements, the actual engine horsepower on these mowers may be significantly lower.
